Indore, Madhya Pradesh | +91-8236055268 | kalmodiyahirdesh@gmail.com | linkedin.com/in/hirdesh-kalmodiya |
github.com/Hirdeshkalmodiya45 | LeetCode

Professional Summary

Full Stack Developer with hands-on internship experience building scalable MERN-stack applications. Strong foundation in Data Structures, Algorithms, DBMS, Operating Systems, and Computer Networks. Maintains an **8.7 CGPA** and has solved **342+ LeetCode problems**. Passionate about building scalable systems, writing clean code, and developing impactful software solutions.

Education

Institute of Engineering & Science, IPS Academy

B.Tech, Computer Science Engineering CGPA: 8.7 / 10.0

2023 – 2027

Indore, MP

Rose Mary Higher Secondary School

Class XII (PCM) – 76%

2023

Bhopal, MP

Technical Skills

Languages: C++, Java, JavaScript, Python(basic), SQL

Frontend: React.js, HTML, CSS, Tailwind CSS, EJS

Backend & Databases: Node.js, Express.js, MongoDB, MySQL, REST APIs

Generative AI: LangChain, LangGraph, RAG, AI Agents, LLMs

Tools & Platforms: Git, GitHub, Docker, AWS, Postman, Render, VS Code

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Experience

Full Stack Developer Intern

May 2025 – July 2025

Snayvik Tech Labs Pvt. Ltd.

Indore, MP

- Engineered and shipped production-ready React.js components and RESTful API integrations, improving application performance and maintainability through reusable component architecture and efficient state management.
- Developed backend modules in Node.js and Express with MongoDB; built JWT-based authentication and role-based access control adopted across the platform.
- Diagnosed and resolved critical bugs in a live codebase through systematic debugging, collaborating in agile sprints with daily stand-ups and code reviews.

Projects

AI Document Chat Assistant | *Python, LangChain, LangGraph, ChromaDB, Streamlit, Gemini, Groq*

2025

- Built a RAG-based chatbot for PDF question answering using semantic search and vector retrieval.
- Implemented AI Agents, memory, tool calling, and streaming responses with LangGraph.

AI Research Agent | *Python, LangChain, LangGraph, Groq, Ollama*

2025

- Developed an AI agent with web search, tool calling, memory, and multi-step reasoning capabilities.
- Integrated retrieval workflows and real-time streaming responses for context-aware interactions.

AI Resume Analyzer | *Python, LangChain, Gemini API, Streamlit*

2025

- Built an AI-powered resume evaluation tool with ATS score estimation and skill-gap analysis.
- Implemented job-description matching and personalized improvement suggestions using LLMs.

Multi-Model AI Chatbot | *Python, LangChain, Gemini, Groq, Ollama, Streamlit*

2025

- Developed a conversational AI platform supporting multiple LLM providers with dynamic model switching.
- Implemented conversation memory, prompt templates, and real-time response streaming.

StudyMate – Aptitude Preparation Platform | *React, Node.js, Express, MongoDB*

2025

- Built a full-stack aptitude platform featuring 500+ MCQs, JWT authentication, analytics, and leaderboards.
- Designed REST APIs and optimized MongoDB aggregation queries for real-time performance.

WhatsApp Chat Clone – Real-Time Messaging App | *React, Node.js, Socket.io, MongoDB*

2025

- Built a real-time messaging application with JWT authentication and WebSocket communication.
- Implemented persistent chat storage and responsive UI for seamless cross-device messaging.

Achievements

- 342+ LeetCode Problems Solved:** Solved problems across Arrays, Strings, Linked Lists, Trees, Graphs, Dynamic Programming, Greedy Algorithms, and Binary Search.
- 8.7 CGPA:** Maintained strong academic performance throughout B.Tech in Computer Science Engineering.
